

SCHÖNES WETTER!

TFA®

THERMOWIRE

14.1505.xx THERMOWIRE Gourmet-Thermometer for Smartphones

Learn the secret to cooking a perfect steak, roast or whatever food you prepare: **Check the core temperature!**

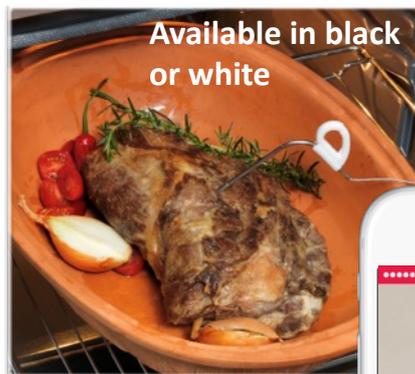

Taste at its best

Cook like a chef with **100% success guaranteed**. The THERMOWIRE app gives you notification when the correct temperature is reached and your dish has been perfectly cooked.

Free app with many useful features

Download the free THERMOWIRE app on your smartphone, plug in the THERMOWIRE module into your smartphone's earphone jack and there you go. Use the **pre-programmed cooking profiles** or set up a custom target temperature. When the target temperature is reached an alarm will sound. The app comes with a **timer- and stopwatch function** and with the **graph function**, you can track the cooking process in detail. When the dish is successfully cooked, you can **take a photo** and share it with your friends on Facebook or Twitter.

- **Fast reacting stainless steel probe**
- **Notification function on reaching the target temperature**
- **Graph function of the cooking process**
- **13 standard pre-programmed cooking profiles**
- **Profile-Editor to create your own cooking profiles**

Capture mode
